

Junior Web Developer

Sheffield, Full-time, Permanent

Annual Salary: £28,000 to £35,000 dependent on experience and qualifications

We are searching for a self-motivated web developer looking to take the next step and be the primary developer for our PHP-based software platform.

Step-by-step, you'll become responsible for the development and performance of our entire infrastructure. You'll work with colleagues and departments across the organisation but will work directly for the Head of Design and Development who provides the technical direction and systems management.

As you grow in the role, you'll work on responsive websites, databases, e-commerce solutions and mobile apps as well as the AWS and Docker infrastructure that enables them. You'll develop new solutions in-house and work with external developers who build our more complex software.

About us

You'll be working for the UK's leading sports activity provider – with 60 locations around the country and serving resorts and cruise lines around the world. Working in a youth market, we constantly need to update and develop our systems, use the latest technologies and integrate with new online services. Our systems are essential to thousands of staff, parents, and children who attend our programmes and use our services. You'll be part of a dynamic head-office team, with an energetic and positive work culture, located in a beautiful part of Sheffield. Go to <https://www.kingscamps.org/> and <https://www.kingsrecruit.com> see more of what we do.

Essential

- Educated at degree-level or have gained equivalent workplace skills and knowledge
- 2 years' experience coding in a commercial environment
- Good understanding of the LAMP web application stack (primarily server-side)

Desirable

- Knowledge of SQL (ideally MySQL)
- Understanding of the software development processes inc. version-control and testing
- Understanding of REST APIs and JSON/XML data
- Understanding of hosted platforms like Amazon AWS, Microsoft Azure, Google Cloud etc
- Self-disciplined, able to prioritise and an ability to communicate well as part of a team

To Apply

Please email Maddy Swift at careers@kingsfoundation.org with your CV and the reasons why you'd be great for this role.
